

## PROTECT YOUR LARGER CRITICAL SPARE PARTS WITH

### MilCorr® VpCI® Shrink Film by

MilCorr® VpCI® Shrink Film is a heavy duty film featuring Cortec Multimetal Vapor phase Corrosion Inhibitors. MilCorr® VpCI® Shrink Film provides a top-notch universal protection system with high ultra-violet (UV) light protection to maintain the integrity of the film itself as well as the parts packaged within.

MilCorr® VpCI® Shrink Film can replace conventional rust preventatives such as oils and desiccants. Parts protected with MilCorr® are ready to use with no additional cleaning and/or degreasing necessary, saving you time and money.

Metal parts packaged in MilCorr® receive continuous protection against salt air and humid environments, moisture, aggressive industrial atmospheres, and dissimilar metal corrosion. The corrosion inhibitors vaporize and condense on all metal surfaces within the enclosed space, and diffuse to every area of your part; protecting its exterior as well as void spaces and recessed areas. You get complete product storage protection as well as during domestic and overseas shipments, virtually eliminating any rust claims.

MilCorr® VpCI® Shrink Film, in conjunction with other Cortec® products, provides a total turnkey preservation for long term outdoor storage. **Also available in Flame Retardent.**

**MilCorr® VpCI® Shrink Film Protects the following Metals: Steel, Solder, Iron, Brass, Aluminum, Copper and Nickel.**

#### FEATURES:

- Provides UV protection for outdoor storage
- Multimetal corrosion inhibition providing contact, barrier and vapor phase protection
- Superior mechanical properties
- Will shrink using a wide variety of shrink tools including electric and propane heat guns
- Provides a unitized, tight and tamper-proof load
- Extra protection for outdoor climates
- Immediate use of protected object upon removal
- Recyclable and non-toxic

#### TYPICAL APPLICATIONS:

- Military vehicles and equipment preservation
- Mothball preservation of industrial equipment
- Export packaging of expensive larger equipment
- Heavy equipment covers
- Recreational vehicle preservation (boats, snowmobiles, etc.)
- Pallet shrouds

#### Cortec® VpCI®-126 Blue will meet BOTH Large and Small needs.

Cortec® VpCI®-126 Blue is heat sealable and can be used with all types of manual or automated heat-seal packaging equipment. The material is available in a variety of standard and customized forms including bags, sheeting-reinforced film, Zip-Lock and Auto-Bags, gusseted liners, bags-on-a-roll, perforated sheeting, coil covers, shrink film, and tubing to protect small or large parts.

**Contact USI TODAY 248-735-7000 → Set up a Site Visit to receive a FREE Corrosion Audit on how to best Protect your Large (and small) Critical Spare Parts with the many varieties of VpCI products from USI.**

## May 2019 UPCOMING EVENTS

- Monday thru Friday **April 29** thru **May 3**  
AGA Conference in Nashville, TN
- Thursday May 2 - Michiana Facilities Expo in South Bend, IN
- Tuesday thru Thursday May 7 thru 9  
Appalachian UCSC in Morgantown, WV
- Thursday May 16 - SEMPES Meeting in Dearborn, MI
- Thursday May 30 - USI Sales Meeting and Denso Training  
at USI Wixom, MI Headquarters
- Friday May 31 - USI Golf Outing in Milford, MI

## June 2019 UPCOMING EVENTS

- Thursday June 13 - WPCCC - Jungle Out in PA
- Friday June 14 - USI Ohio Branch Golf Outing  
in Miamisburg, OH
- Monday thru Thursday June 24 thru 27 - WBENC  
in Baltimore, MD

### Also from **INDUMAR** Stop It® Gas Riser Rehabilitation

- Riser Reinforcement
- Riser Protection
- Re-Strengthening Corroded Pipe
- Corrosion Protection
- Air To Soil Interface

## INDUMAR STOP IT® Boreshield™

Problem Solving Products for Industry™

### GREAT FOR USE ON:

- HDD
- Tees
- Elbows
- Saddles
- Joints
- Step Profiles

**PHOTO: Bore-head with Stop It® Boreshield™**  
*Minimal Damage after 4 sequential pulls of ~1000 FT,  
preserving the integrity of the weld.*

### FEATURES:

- Can be applied to wet or dry surfaces
- Superior resistance to environmental degradation
- Excellent abrasion & impact resistance
- Strong adhesion to pipe surfaces
- Minimal preparation time
- Excellent conformability
- Cures to an inert fully encasing matrix
- Can be field applied
