

C O R U P T I O N - I D 9

USI IS THERE TO SUPPORT THE INFRASTRUCTURE WHEN YOU NEED IT MOST

- DO YOU HAVE ACID OR CAUSTIC TANKS THAT ARE SEVERELY PITTED?
- NOT SURE WHAT SHAPE THEY ARE IN?

USI can help determine the shape they are in with UT Testing and Tank Inspection.

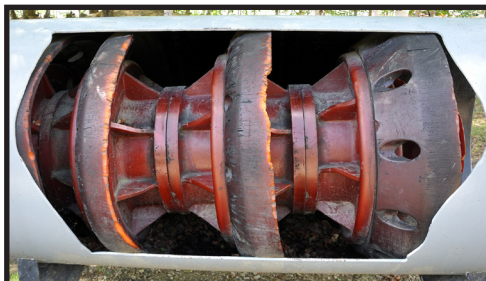

Call 248.735.7000 or email office@USIgroups.com to request a Tank Inspection or a Corrosion Survey TODAY!

This customer had USI start blasting and coating after they had gotten a thorough UT Test and Inspection. This acid tank was inspected to see if there was enough wall thickness to line, and then coat the tank, to prevent the acid from continuing to deteriorate the tank and its current lining, and bring a permanent stop to any acid leaking during this detrimental time. The USI Team acted **FAST** and was able to bring the best solution **QUICKLY!**

NOW IS A GOOD TIME IF YOU HAVE ANY HYDROSTATIC TESTING THAT NEEDS TO BE DONE!

USI has a selection of products with Vapor-phase corrosion inhibitors (VpCI). These products, when added to water in small concentrations, are able to prevent corrosion during testing, during wet storage and after testing. Contact a USI Technical Consultant Today!

Contact USI TODAY 248-735-7000 Your Stocking Distributor & Training Experts and set up a Site Visit to receive a FREE Audit. Let the USI Team find the BEST Solution for your Unique Issues.

April & May 2020 UPCOMING EVENTS
