

EXPECT NOTHING BUT THE BEST WHEN USING STOP IT® Boreshield™ & Gas Riser Rehabilitation

INDUMAR

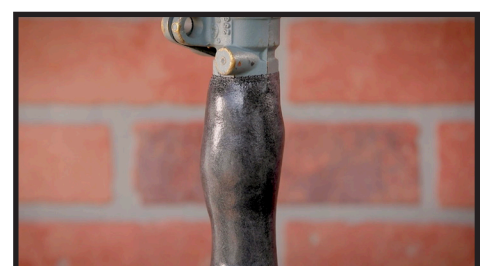

Problem Solving Products for Industry™

BOTH PRODUCTS FEATURE

- Infield Installation
- Minimal Preparation
- No special tools or hot work
- Fast Cure Times
- Application on Wet or Dry surfaces
- Excellent Conformability
- Non-Hazardous
- Chemically Resistant
- Temperature Resistant from -20°F to 250°F

← BORESHIELD

Protect the Integrity of your piping assets. Reduce your downtime and eliminate coating damage. BoreShield can be your sacrificial outer lamenant composite system. BoreShield should be applied RIGHT OVER your epoxy, viscoelastic coating or other pre-approved anti-corrosion field joint coatings. BoreShield has super abrasion resistance and corrosion protection. It is chemically resistant to most acids, bases and hydrocarbons, including petrol chemicals. BoreShield can also be Volt Tested and is a great choice for Federal Guidelines of HDD "Precautions must be taken" (192.461).

GAS RISER REHAB →

Accuracy & Integrity are crucial for Gas Risers to perform at their best. Risers are subject to corrosion & external damage which can lead to disruptions in gas service, expensive and time consuming replacement procedures and critical safety concerns. Using Gas Riser Rehabilitation, you can prevent failures & dangerous situations all while restoring a corroded gas riser in minutes avoiding expensive pipe replacement. Gas Riser Rehab is a composite coating that will enhance the structural integrity of anodeless risers. The Gas Technology Institute in Illinois tested for systems, and InduMar's GRR came out #1 with a 50 Year expected service life!

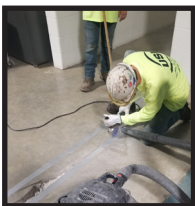

Contact USI TODAY 248-735-7000 Your Midwest/Great Lakes Stocking Distributor & Training Experts And Set up a Site Visit to receive a FREE Audit on how to Repair and Protect all your Pipe needs with the BEST Products & Service from the USI Team.

June 2019 UPCOMING EVENTS

- Tuesday June 11 - GLWBC in Carmel, IN
- Thursday June 13 - WPCCC - Jungle Out (Golf Outing) in PA
- Friday June 14 - USI Ohio Branch Warehouse Golf Outing in Miamisburg, OH
- Friday June 21 - Chicago NACE Section Golf Outing in Channahon, IL
- Monday thru Thursday June 24 thru 27 - WBENC in Baltimore, MD
- Wednesday June 26 - Detroit NACE Section Golf Outing in Ann Arbor, MI

July 2019 UPCOMING EVENTS

- Thursday July 4 - INDEPENDENCE DAY 
- Friday July 26 - DTE SAFETY DAYS in Monroe, MI
- Friday July 26 - SEMPES Golf Outing in Milford, MI

The USI TEAM Prepping to use Epigen 0301.

This product is a tough infusible solvent free advanced composite system developed to be used as a multipurpose high strength casting and grouting polymer. Exhibits excellent chemical resistance, corrosion resistance, and high structural integrity under stress in both compression and tension.

USI OFFERS ATMOSPHERIC UV STABLE COATINGS FROM

LONG LASTING HIGH PERFORMANCE PRODUCT LINE:

HiTemp - High Temperature Coatings, **Spray-Safe** - Industrial Dry Fall Coatings, **OEM Coatings** - Coatings for Original Equipment Manufacturers, **CUI Coatings** - Coatings for the Prevention of Corrosion Under Insulation, **ChemTemp** - Chemically Resistant Liner and **Direct-to-Metal Coatings**, **Industrial Maintenance Coatings** - Long-Lasting Quick-Dry Coatings.

PRODUCT USED:
475R Dry-Fall Epoxy & 68R Dry-Fall Urethane

PRODUCT USED:
860 HiTemp 400 F Primer & 865 HiTemp 400 F Topcoat
