

USI HAS THE COATINGS YOU NEED AND THE MEANS TO DELIVER THEM TO YOU >>> FAST.

As you can likely imagine, no one coating can do it all. That is why so many satisfied Unconventional Solutions customers come back to USI every time to reorder. Because they know not only will they get great brands like SPC, Denso, 3M and others, but they will get the technical support and troubleshooting to guide them toward the right coating for the application. USI's Trained Coating Inspectors will guide you asking questions such as:

- Does it need to handle HDD's or bores?
- Is the pipe surface going to dry, damp or wet?
- Will it be applied to hot or cold pipe surfaces?
- It is for an integrity dig and maintenance coating or new pipeline construction?
- What type of surface preparation will your work force be able to use?

If you have new team members that need coating training, USI has authorized Inspectors that can train owners and contractors on many of the pipeline coatings we stock. **BOOK YOUR TRAINING WITH USI TODAY!**

248.735.7000 or office@USIgroups.com

CUI - CORROSION UNDER INSULATION DID YOU KNOW?

- CUI can consume up to 50% of a piping plants MRO budget.
- CUI cost one aging refinery over \$50 Million caused by a leak in a 4" hydrocarbon line that caught the spark it needed to ignite and cause massive damage.
- CUI is possible even on stainless steel piping at temperatures of 32°F to 300°F

WHAT ARE YOU DOING TO PREVENT CUI?

At USI, we have the preventative knowledge of solutions to best fit your needs. Knowledge of **High Temp** solutions such as:

- 100% Solids or Two Part Epoxy Coatings
- Novolac Coatings
- Insulative Coatings
- Corrosion Inhibitors

Contact USI TODAY 248-735-7000 for quick delivery of your materials and to schedule time with our Training Experts. Let the USI Team find the BEST Solution for your Unique Issues.

Ask USI about our Contract Prices for the 3rd & 4th Quarter and become **a VIP Client with Special Privileges!**

CONTRACTORS CORNER

5 THINGS TO LOOK FOR WHEN SELECTING A PIPELINE COATING

- #1 Does it meet ASTM, NACE and CSA performance test for a qualified FBE or Liquid Applied Coating?
- #2 Can it handle High Temperature service?
- #3 Is it flexible?
- #4 Has it been tested for Cathodic Disbondment?
- #5 What type of impact can it handle?

The USI Team offers:

Technical Support • Training • Troubleshooting

HOTSHOT Same Day Local Deliveries for Emergencies for orders placed by 2:00PM EASTERN TIME
