

**TIRED OF HAVING ATMOSPHERIC COATINGS FAIL IN 3 TO 5 YEARS?
WORRIED ABOUT CONTRACTORS OR EMPLOYEES NOT MIXING THE
PRODUCT AT THE CORRECT RATIO?
WANT SOMETHING THAT IS SELF-HEALING?**

TAKE A LOOK AT

AMP-UP™ 100 SELF-HEALING WATER BASED EPOXY PRIMER

**AMP-UP™ 100 received the
2019 NACE Materials Corrosion Innovation of the Year Award**

AMP-UP™ 100

AMP-UP™ 100 is a single component, self-healing water-based epoxy primer for use on steel and other metal substrates that are prone to damage and exposed to corrosive environments. **AMP-UP™ 100** utilizes patented self-healing technology to maintain adhesion and superior corrosion resistance after damage. **AMP-UP™ 100** can be used with a selection of high-performance topcoats including our **AMP-UP™ PROSHIELD**, **AMP-UP™ AMPTHANE™**, and **AMP-UP™ AMPCRYL™** for a suite of low VOC, high-performance corrosion protection, gloss, and color retention properties.

FEATURES

- Award-winning self-healing technology
- A volatile organic compound (VOC) content of less than 50 g/L
- The convenient one-component epoxy hybrid coating eliminates the need for mixing multiple components in the field, saving time and eliminating costly errors
- Long pot-life, which is particularly helpful for coating structures with complicated shapes
- Low VOC and low odor makes the product safer for applicators
- Fast-drying allowing the application of additional coats in a short time which saves time on jobs
- Maintains adhesion after damage
- Superior corrosion resistance

APPLICATIONS

- New Steel Construction
- High Traffic Areas
- Agricultural
- Construction
- Earth Moving Equipment
- Metal Buildings
- Building Envelope Exposed Metal Components
- Mining Equipment
- Tanks
- Water Towers
- Shop Priming
- Oil & Gas Infrastructure
- Industrial Maintenance
- Facility Maintenance
- And so MUCH MORE

**Your SUCCESSFUL Project starts with calling USI at 248-735-7000 or office@USIgroups.com
Ask us about the AMP-UP™ 100 and its supporting Suite of Low VOC Topcoats.**

PLAN AHEAD NOW IN 2021

Plan Ahead

February 5, 2021 - USI's very own, Doug Klingensmith will present at KGA's Virtual Education Series on Atmospheric Coating for the Gas Industry - 2PM ET (<https://kygas.org>)

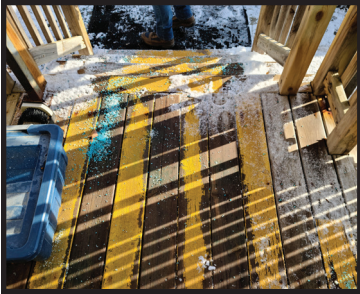

February 16, 2021 - Thomas Keadle, Technical Manager at Denso, will host a webinar presenting on How to Prevent Corrosion of Wind Turbine Anchor Bolts using the Denso Petrolatum System - 11AM ET (<https://register.gotowebinar.com/register/28630594808019469?source=USI+-+Social+Media>)

June 11, 2021 - USI's 4th Annual Client Appreciation Golf Event at our Ohio Location - 937.704.4220

June 18, 2021 - USI's 17th Annual Client Appreciation Golf Event at our Michigan Location - 248.735.7000

DO YOU HAVE A TRIP, SLIP OR FALL HAZARD ON YOUR PROPERTY?

USI HAS PROVEN, LASTING, SOLUTIONS!

Safety Line Striping, 10 years later, still preventing Trips, Slips and Falls.

Contact the USI Team at 248.735.7000 or office@USIgroups.com

Let us help you KEEP SAFETY FIRST!
