

CORROSION CAPABILITY STATEMENT

Unconventional Solutions, Inc.
Repair - Protect - Upgrade

Our Mission:

Repair – Protect - Upgrade

Passion

Innovation

Integrity

Perseverance

Since 2002, we've been working to train, troubleshoot and provide technical support necessary for corrosion prevention and control. When it comes to safeguarding your company's critical infrastructure, USI Groups delivers the ultimate peace of mind.

PREVENT COSTLY DOWNTIME

With on-site technical support, AMPP training, and timely repairs, we help power generation, manufacturing, agriculture, and more industries keep their critical infrastructure operating at peak performance.

INCREASE SUSTAINABILITY

We believe that repair, rather than disposal, allows your infrastructure to rebound quickly and fosters a future of sustainability. Reducing what you send to the landfill and extending the life of your equipment and facilities.

TROUBLESHOOT CRITICAL ISSUES

When your industrial machinery, equipment, or facilities aren't performing at a high level or unexpected downtime occurs, our AMPP-certified coating inspectors can diagnose the issue and assign a solution.

PRODUCTS WE PROVIDE

- Metal & Pipe Repair Systems
- Flexible Repair Systems
- Ceramic Repair Systems
- Corrosion Repair Systems
- Chemical Protection Systems
- Pipeline Repair Systems
- Floor Repair or Refurbishment
- Concrete Repair Systems
- Surface Preparation Tools
- Repair Kits

DIFFERENTIATORS WE PROVIDE
