

OIL & GAS CAPABILITY STATEMENT

Unconventional Solutions, Inc.
Repair - Protect - Upgrade

Our Mission:

Repair – Protect - Upgrade

Passion

Innovation

Integrity

Perseverance

Since 2002, we've been working to train, troubleshoot and provide technical support necessary for corrosion prevention and control. When it comes to safeguarding your company's critical infrastructure, USI Groups delivers the ultimate peace of mind.

PREVENT COSTLY DOWNTIME

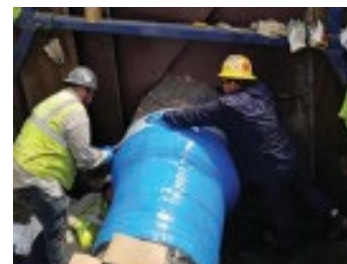

With on-site technical support, AMPP training, and manufacturer's training we help transmission lines, distribution lines, compressor stations, and refineries keep their critical infrastructure operating at peak performance

INCREASE SUSTAINABILITY

We believe that repair, rather than disposal, allows your infrastructure to rebound quickly and fosters a future of sustainability. Reducing what you send to the landfill and extending the life of your equipment and facilities.

TROUBLESHOOT CRITICAL ISSUES

When your industrial machinery, equipment, or facilities aren't performing at a high level or unexpected downtime occurs, our AMPP-certified coating inspectors can diagnose the issue and assign a solution.

PRODUCTS WE PROVIDE

- Liquid pipeline coatings
- Atmospheric coatings
- Petrolatum products
- Primers and sealants
- Tank chime protection
- Cold and hot applied tapes
- Bitumen and butyl tapes
- Casing end seals
- Corrosion Inhibitors
- USDOT 49 CFR approved pipe repair system

DIFFERENTIATORS WE PROVIDE

- Technical support, training and trouble shooting
- Onsite or field training for inspectors, supervisors and contractors
- AMMP certified coating inspectors
- Coating surveys and specifications
- 24/7 tech support
- Hot shot (same day) delivery available
- Multiple warehouses
