

## Leaking Wastewater Pipe Repair

### PROBLEM

On New Year's Day, this drain commission found an active leak at a 3 inch "T" and had no replacement parts available.

Fortunately, they ordered pipe repair material from Unconventional Solutions four months earlier.

### SUBSTRATE

Metal Pipe

### PRODUCTS USED

RESIMETAL 105 Aqua Stick

RESIMETAL 108 Pipe Repair Tape

### SOLUTION

They used the RESIMETAL 105 Aqua Stick and RESIMETAL 108 Pipe Repair Tape and were able to make an online repair at 80psi without shutting down.

The USI technical consultant was on-site on New Year's Day to make sure the repair went smoothly.

They took the RESIMETAL 105 Aqua Stick and forced it into the RESIMETAL 108 Pipe Repair Tape to make sure the RESIMETAL 105 Aqua Stick stayed in the fabric.

The result was a short-term fix that gave long-term results. The repair was in service for over 18 Months.

Unconventional Solutions can help you repair, protect, and upgrade your aging equipment instead of having to manage the cost, resources, and time to remove and replace.
