For over 20 years Unconventional Solutions has been partnering with industry to repair, protect and upgrade critical infrastructure. In the process we help avoid downtime and costly replacements. We pride ourselves on helping glue the world together one job at a time.

This December we want to reflect on what we have done this year, and more importantly the things we have not done. We are looking for how we can best serve you going into 2024.

First we want to thank you for your business this last year and we look forward to doing more with you in 2024. **Your feedback is very important to us and we value your input.**

Keeping You in the Know Since 2002

USI Dates to Remember

December 23-27 and December 30-January 2
Closed. Happy Holidays

January 18

SEMPPEs Meeting at Bakers of Milford
(Milford, MI)

February 15

SEMPPEs Meeting at Whiskey's on the Water
(Wyandotte, MI)

REPAIR LEAKS – IN PLACE

Leaking Pipes keeping you up at night?

Leaking pipes cost you money in two ways:

1. **COST OF LOST FLUID.** You lose the actual cost of the fluid leaking. Treated water or chemicals for processes can be quite expensive
2. **REPORTABLE OSHA violations.** You may have the potential of an OSHA reportable incident.
3. **DOWNTIME** for needed or required repair and maintenance
4. **SLIP AND FALL RISK.** According to some insurance companies leaks costs the USA up to \$5 billion a week in trip, slips and falls.
5. **FUGITIVE DUST** leaks can bring fines from the EPA of \$20,000 to more than \$150,000.

Resimac Resimetal 101 Metal Repair Paste

A two component solvent free epoxy metal repair compound designed to fill surface erosion & corrosion on metallic surfaces. The material can be applied to mechanically or abrasive blast cleaned surfaces and once cured will retain high mechanical adhesion to metallic substrates. The thixotropic nature of the product means it can be applied at thicknesses up to 25mm without sagging and can be machined to fine tolerances.

- Worn or damaged pump shafts
- Worn bearing housings
- Worn keyways
- Cracked pump or valve casings
- Damaged flanges
- Cracked engine blocks
- Scored hydraulic rams
- Leaking Tank Seams
