Slips, Trips, and Falls Prevention in the Industrial Sector

Preventing slips, trips, and falls requires a multifaceted approach, incorporating both procedural changes and physical solutions.

Unconventional Solutions offers a variety of products tailored to enhance workplace safety and prevent these costly incidents.

Learn more of our anti-slip coatings, coefficient of friction testing, floor marking systems and repair products.

**US Coatings
VSC1200:
Advanced High
Solids Polyester Polyurethane Topcoat**

This top-tier product is designed to deliver long-term protection and durability, making it ideal for a wide range of industrial applications. The US Coatings VSC1200 stands out with its unique formulation that incorporates Eastman TETRASHIELD™ resin technology.

**Highland
International 325R
Zinc - Advanced
2-Component Zinc-
Rich Epoxy Primer**

Boasting an impressive 84% zinc dust content in its dry film, this primer sets a new standard in metal protection. The innovative formulation of Highland International 325R Zinc is tailored to ensure its overspray dries to a powder within 10-20 feet from the point of application.

**US Coatings
EpoxyGrip 2000:
High-Performance**

Epoxy Mastic Coating Designed to excel in highly corrosive environments, EpoxyGrip 2000 offers a robust solution for a variety of industrial applications. This product is not just a coating; it's an armor for your structures, providing long-lasting defense against the elements.
