Concrete Repair Solutions for Oil & Gas Facilities Get Back to Work Faster. Repair Smarter. Protect Longer.

In the oil and gas industry, damaged concrete isn't just an eyesore — it's a safety risk and a potential threat to productivity. Whether it's a damaged loading bay, cracked containment area, or deteriorating equipment pad, failing concrete can lead to costly downtime if not addressed properly.

At Unconventional Solutions, we understand the unique challenges faced by industrial facilities. That's why we offer a full line of Resichem concrete repair solutions designed specifically for fast, durable, and reliable repairs — so you can keep your operation moving without the wait.

Choose the Right Solution for Your Repair Needs:

Resichem 570 Concrete Repair — Rapid Return to Service When time is critical, Resichem 570 delivers. This fast-curing concrete repair compound allows for quick patching and structural repair, minimizing downtime and getting your equipment and personnel back to work — fast.

- ✓ Rapid cure time for quick turnaround good for foot traffic in 2-3 hours, truck traffic in 4 to 6 hours.
- ✓ Ideal for high-traffic areas and operational zones
- ✓ Easy-to-apply and cost-effective solution for emergency repairs

Resichem 571 Lightweight Concrete Repair — Built for Overhead & Vertical Repairs
Repairing overhead beams, walls, or vertical structures? Resichem 571 is your go-to solution. Its lightweight formulation makes it easy to apply without sagging up to 2" in depth — even in hard-to-reach spots.

- ✓ Lightweight and easy to handle for overhead and vertical applications
- ✓ Smooth application with excellent adhesion while still giving you 6000 PSI compressive strength
- ✓ Reduces labor time and complexity on challenging repairs

Resichem 576 Durable Concrete Repair — When Strength Matters Most For areas exposed to heavy impact, abrasion, or chemical attack, Resichem 576 provides the durability you need. This heavy-duty repair system is engineered for the toughest environments, ensuring long-term protection where failure is not an option.

- ✓ High mechanical strength for demanding environments as it comes with a primer with 12,500 PSI compressive strength for micro cracks
- ✓ Excellent chemical and abrasion resistance
- ✓ Long-lasting solution for critical infrastructure and containment zones
- ✓ No freeze thaw issues

Not Sure Which Product Is Right for Your Application? Our team of experts is here to help you choose the best repair solution for your specific needs. Whether it's a fast fix or a long-term reinforcement, we have the right tools to keep your facility running safely and efficiently.

at Back Nine (Indianapolis, MN)

June 6 — USI Customer
Appreciation Golf Outing - Ohio
(Miamisburg, OH)

June 13 — USI Customer
Appreciation Golf Outing - Michigan
(Milford, MI)

3M™ 323+ Scotchkote – 450ML Cartridges

3M™ 323+ Scotchkote Liquid Epoxy Coating is the latest innovation in Liquid Epoxy Coatings from 3M. This two-part system features

improved adhesion, flexibility and impact resistance to help prevent corrosion on steel pipes and other metal surfaces.

CLOSE OUT SALE to make room for new inventory, supplies won't last long. Call us today!

Coating Details:

- 100% solids / VOC Free
- Excellent adhesion
- High build, up to 45 mils, in one application
- Can be applied to a substrate as cold as 41°F/5°C

Resimac Resichem 576 Quartz Screed: Superior Epoxy Mortar for Durable Surface Repairs

Resimac Resichem 576 Quartz Screed stands out as a high-strength, solvent-free epoxy repair mortar, expertly crafted to transform uneven concrete surfaces. This high build trowel screed, based on epoxy resin, is specially designed to be applied with a wet film thickness of 10-30mm (3/8" - 1-1/4"). Upon curing, Resimac 576 effectively smooths out imperfections, ensuring a more even and resilient surface.

Resichem 570 Epoxy to fix/ patch Concrete Repair XF

Resichem 570 Concrete Patch Repair XF is a fast curing 3 part concrete mortar which is ideal for repairs to damaged concrete surfaces. The product once mixed, can be used to repair or build.

Concrete Patch Repair XF is a high-performance, self-priming, three-part solvent-free epoxy repair mortar, expertly crafted for restoring and rejuvenating cementitious surfaces. This robust product is formulated to offer exceptional chemical and abrasion resistance, making it the ideal choice for rapid and effective repairs to concrete substrates.
