Protecting Your Business for a More Sustainable Future

Prevent Trips, Slips and Falls - Protect People and Property

Did you know slips, trips, and falls account for **15% of all accidental deaths** and are one of the **leading causes of workplace injuries** (OSHA)? Beyond the pain and recovery for victims, property owners face lawsuits, rising insurance premiums, and damaged reputations.

The Solution? **Slip Resistance.**

Safe floors save lives and money. Slip resistance measured by the **coefficient of friction (COF)** shows how well a surface prevents slipping. The higher the COF, the safer the floor. Advanced tools like the **BOT-3000E Tribometer** ensure surfaces meet **ANSI and ASTM safety standards.**

Why It Matters to You:

- Protect people from accidents
- Reduce legal and financial risks
- Build trust and credibility

By teaming up with Unconventional Solutions, our inspectors can advise you on the best course of action to take to prevent slip-and-fall accidents and the associated personal and financial consequences. These steps may include chemical etching, abrasive treatments, finishes and coatings, and more.

Protect your pipelines during HDD with confidence. Denso Bore-Wrap a **field-applied abrasion resistant outerwrap (ARO)** engineered to shield coatings from impact, gouge, abrasion, and fracture.

Borewrap creates a tough, sacrificial layer that safeguards field joints and mainline coatings during directional drilling, boring, and other trenchless installs.

Contact USI today to learn how Bore-Wrap can safeguard your next project!

DATES TO REMEMBER

OCTOBER 6-7

AMPP Great Lakes Vendor Day

OCTOBER 6

Fundamentals of coating Class 1-5 PM
Networking 6-9 PM

OCTOBER 7

Vendor Display 8-10:30
MCS Business Meeting
10:39
Lunch and speaker 12:00

OCTOBER 21

Chicagoland AMPP

NOVEMBER 19

#USI Tech Talk
Flooring Systems

DECEMBER 10

Great Lakes AMPP
Soaring Eagle

HOTSHOT & SAME DAY
Local Deliveries available for orders
placed by 2 pm. EASTERN TIME

OCTOBER 2025 | WWW.USIGROUPS.COM

USI Fast Cure Line Striping

Delivers **outstanding abrasion, chemical resistance, and deep substrate penetration.**

Available in **yellow, black, red, and white**, it stands up to tough solvents and chemicals while keeping surfaces protected and visible.

Peat Sorb

- 12X More absorbing capacity than clay-derived sorbents
- Fast-acting and effective oil spill clean-up on land or in water
- Easy disposal in landfill (oil will biodegrade) or burned as fuel
- Non-leaching, non-toxic, non-abrasive and cost effective
