

# Leading Edge

Protecting Your Business for a More Sustainable Future

## Stuck bolts? Rusty hardware?

### Simple 3-Step Solution:

## Loosen. Lube. Protect.

When corrosion seizes equipment, downtime follows. This 3-product lineup handles the full cycle: free stuck parts, then prevent rust from returning.

### Kroil® Penetrating Oil (since 1939)

A **proven** penetrating oil that creeps into tiny gaps to **loosen rusted or seized nuts, bolts, hinges, chains, tools, and more.** **Fast-acting**, displaces moisture, and leaves a light protective film.

### Cortec® VpCI® Super Penetrant

For severe corrosion: a **deep-penetrating** formula that loosens frozen parts and can penetrate up to **1/2" of rust in 30 minutes.** Apply by aerosol, spray, brush, or dip.

### S2S Corrosion Shield (clear protective coating)

A thin, clear, one-step coating for metal + electrical parts, ideal for storage and transport. Key benefits: **500+ hours ASTM B117 salt spray, 36,000V dielectric strength**, can **apply over rust/paint** and even to damp surfaces.

### Quick Guide

- **Everyday stuck parts:** Kroil Penetrating Oil
- **Heavy rust/frozen assemblies:** Cortec® VpCI® Super Penetrant
- **After the fix** (or before storage/shipping): S2S Corrosion Shield

FEBRUARY 2026

## Kroil® Penetrating Oil

**Trusted Quality** - Since 1939

**Deep Penetration** - Excelling in reaching small openings, threads and crevices.

**Powerful Leverage** - Enhances your ability to dismantle tough, rusted parts.

**Corrosion Fighter** - Effective against corrosion, rust and carbon deposits.

**Long-Lasting Protection** - Designed to prevent rust and ensure smooth operation.

## Cortec® VpCI® Super Penetrant

**Loosen immobilized parts** - penetrates 1/2 inch of rust in just 30 minutes.

**Displace moisture and water** - penetrates moisture layers that form on metal surfaces under atmospheric conditions.

**Corrosion protection** - creates an ultra thin layer of corrosion protectant.

## S2S Corrosion Shield

**High-performance**  
Anti-corrosion coating and  
dielectric lubricant

**Engineered to protect metal surfaces from:**

- Rust
- Oxidation
- Electrolysis

**Protect your assets today!**
